Subject: Important Parking Update and Move Out Resources

Good afternoon,

We have been notified by Councilman Joe Giarrusso's office that there will be increased parking enforcement in the neighborhoods surrounding the uptown campus from May 11 to May 13 due to an anticipated increase in traffic as students move out of town for the summer.

Please be especially vigilant during this time as there will be additional enforcement personnel and vehicles patrolling the streets. In particular, please make sure you are not blocking driveways, right-of-ways or parked too close to stop signs or fire hydrants.

We also wanted to share these [resources](#) as you complete the move-out process. Please take the time to make the appropriate arrangements to avoid penalties from your landlord and to maintain good neighborhood relations as you move out.

I wish you every success as you bring this semester to a positive end. I also extend my heartfelt congratulations to those who are members of the graduating Class of 2023.

Sincerely,

Erica Woodley
